Premium Australian Engineered Hardwood

SHOWCASE
THE NATURAL
BEAUTY OF OUR
AUSTRALIAN
SPECIES WITH
OUR NEW UV
LACQUER RANGE
OF FLOORING.

The new 'Invisible' UV Lacquer finish helps to bring out the warm, gentle feel of our Blackbutt flooring while the addition of non-yellowing agents ensure that your floor will maintain a clear look throughout its lifetime.

The vibrant richness of colour found in Spotted Gum flooring lends itself to a traditional UV Lacquer finish which helps to accentuate the impressive spectrum of colours available in this timber.

FIRST FLOORS
Premium Australian Engineered Hardwood

LUXURY IN ANY SPACE BRINGS THE FEELING OF STYLE AND SOPHISTICATION, AND STARTS FROM THE FLOOR UP.

First Floors is a premium engineered floor, with its slightly textured surface and modern matte oil finish it is the perfect choice for interiors of distinction. With the coastal golden rays of Blackbutt, the attractive wild warmth of Spotted Gum and the deep rich tones of Roasted Peat this boutique collection offers only the finest from our Australian species.

Roasted Peat, is an Australian Hardwood that has been through a thermal modification process that uses no chemicals to permanently alter the structure of the wood fibre. This process greatly increases the stability and density of the hardwood, as well as locking in the gorgeous deep earth to chocolate brown colour tones.

We use a stable hevea core along with native Australian hardwood lamellas to provide a consistent and sturdy construction in all our flooring.

Choose from one of our prefinished options for long lasting and easy-to-maintain protection or take advantage of the high degree of flexibility offered by our raw timber to perfectly match your floor to its surroundings.
